Subject: Commendation and Support for StraySafe Initiative.

I am writing to express our wholehearted support and commendation for your remarkable initiative, StraySafe, which is making a significant impact in addressing the pressing issue of stray dogs in India.

The growing problem of stray dogs in our country has become a critical concern, adversely affecting both the well-being of these dogs and posing risks to human safety. Stray dogs frequently become victims of road accidents, and sadly, many are left without proper care. Additionally, incidents of stray dogs biting accidents humans are not uncommon.

While numerous NGOs tirelessly work towards animal welfare, there has been a noticeable absence of effective technological interventions to address the challenges posed by stray dogs. Your innovative approach, especially as a class 12 student, is truly commendable and sets a shining example.

Your dedication to addressing the funding challenges faced by NGOs in the second phase of development, by incorporating a donation facility on the website, reflects a deep understanding of the practical hurdles in addressing the welfare of stray dogs.

Your commitment to this cause and your ingenuity are truly commendable. We believe that your vision aligns closely with our own at House of Stray, where we strive to build shelters across India to provide a haven for needy stray dogs.

On behalf of House of Stray Animals, I would like to extend our heartfelt congratulations to you for bringing attention to this sensitive public health issue and for developing an innovative solution that showcases your creativity and determination. We are confident that StraySafe will continue to make a significant positive impact on the lives of stray dogs and the community at large.

It will be our pleasure to collaborate with you for this noble cause.

Sincerely,

Sanjay Mohapatra
